The **Australasian Conference of Cosmetic Medicine** marks the historic collaboration between the largest contingent of doctors and nurses who practice cosmetic medicine in our region.

ACCM 2020 is the **only** cosmetic medicine conference that focuses comprehensively on all aspects of aesthetics, whether it be injectables, energy-based devices, or cosmeceuticals. And yet it is more than that.

ACCM 2020 is the **only TRUE** cosmetic medical conference, brought to you by those practitioners whose primary occupation is in this field **every day, every week.**
